

Beenleigh Road Upgrade

Dear resident or business owner,
On behalf of Logan City Council, Doval
Constructions wishes to advise of upcoming works
in your area.

When	Early October to late January 2025, Monday to Saturday, 7 am to 6 pm
Please note	Works subject to weather and construction conditions

What is happening?

We are widening and improving Beenleigh Road in Underwood from Millers Road to near Cascade Drive

From 8 October, construction will start to widen the northern side of Beenleigh Road, to create a continuous four-lane road for the entire stretch of Beenleigh Road from Millers Road to Logan Road, to help reduce traffic congestion.

Upgrades include:

- pavement widening from Millers Road to near Cascade Drive
- new kerb and channel
- improved stormwater drainage
- pedestrian footpath upgrade from Cristaldi Avenue to the bus stop on Beenleigh Road.

What you can expect

We aim to minimise disruption; however temporary impacts may include:

- changed traffic conditions and delays

- noise, dust, and vibration
- reduced speed limits
- potential night works for resurfacing activities.

Be prepared:

- Temporary lane closures and switches
- Expect delays and allow extra travel time.
- For safety, follow signed directions and crew instructions.

Thank you for your cooperation while we complete these essential works.
