1.0 Introduction

RiskSmart has been developed in an effort to address a number of issues, both internally and externally, present in the current assessment process. These issues include:

- lengthy assessment timeframes for relatively simple applications;
- a need to foster a better relationship between Council and external consultants;
- staffing issues during peak times including high staff turnover and stressful working environment;
- incomplete and / or incorrect application information quality; and
- inconsistent and unclear Council requirements for development industry.

RiskSmart Assessment allows suitably qualified professionals to assess and set conditions for specific development applications as nominated in this Accreditation Kit. RiskSmart by professional consultants relies on two specific processes to be in place to ensure its efficiency. These processes are as follows:

- The development of clear standards for all nominated works based on the planning scheme and its associated benchmarks, and adopted Council Policies; and
- Creation of a system and process wherein Council could reasonably rely on a suitably qualified consultant's assessment of a development application to make a decision.

The aim of RiskSmart is to reduce timeframes and impacts on industry and Council, and to increase accountability and utilisation of professional consultants.

2.0 Description of Accreditation

The accreditation process, coupled with the clear standards and criteria, seeks to implement a more efficient assessment of nominated development applications.

The accreditation of professional consultants and consultancies is a voluntary process of being certified as meeting minimum requirements designated by an accrediting system. It provides a mechanism for Council to be able to reasonably rely on a consultant's professional qualifications and experience. Its aim is to ensure the integrity of the process and qualify only consultants who, by reason of their expertise, experience, integrity and honesty can be relied upon to properly use the RiskSmart process and to provide relevant documentation including all permits and associated reports and drawings to Council.

Applicants lodging in this way are agreeing to follow and abide by a procedure laid down by Council. Random auditing will be undertaken to assess and monitor the competence of accredited professionals.

To utilise such a process requires experience with lodging competent applications, knowledge of the relevant planning legislation, familiarity with the Council's planning schemes and policies and a high level of reliability in the consultant by the Council.

To undertake RiskSmart Assessment, accreditation for both the individual and the firm / consultancy are required. It is critical that the individual has demonstrated the required level of expertise and experience. Equally the firm / consultancy must demonstrate they hold the required insurance policy, as it is the firm that will ultimately take responsibility for rectifying any breaches or mistakes. Where an accredited consultant moves from one firm to another, the individual consultant is not required to reapply for accreditation provided they are moving from one accredited consultancy to another.

3.0 The Accreditation Kit

The Accreditation Kit contains all the relevant material to assist **consultants** and **consultancies** in obtaining accreditation and outlines Council's expectations. Outlined below are the documents contained in the Accreditation Kit:

- Accreditation Application Form for Consultants and Consultancy;
- Guideline for an 'Accredited Consultant / Consultancy';
- Deed of Agreement for Accredited Consultant; and
- Deed of Agreement for Accredited Consultancy.

The Accreditation Kit adopted for the RiskSmart Assessment process is at Appendix A.

Accreditation Application Form

The ability to qualify as an 'Accredited Consultancy' is available to all relevant competitors provided they meet the relevant specified criteria. The qualifications / experience includes criteria within the following categories:

1. *Professional and Public Indemnity Insurance.* Each 'Accredited Consultancy' must have Professional and Public Indemnity Insurance to cover the provision of this service. Insurance demonstrates that the organisation and its employed / contracted consultants have met professional requirements to obtain insurance and have a business enterprise that is sufficiently robust to require financial protection. Additionally, Council may under certain circumstances, obtain access to this insurance if the individual (or organisation) were to engage in fraudulent or misleading activities.
2. *Demonstrated knowledge* by the consultant of the relevant planning scheme and provisions held therein as well as the relevant planning legislation and other legislation. This may be achieved through providing evidence of lodging a significant number of relevant applications to the Council, in a recent timeframe that demonstrates a detailed understanding of the relevant requirements and processes relating to the assessment of development applications. This includes, but is not limited to:
 - Demonstrated identification and application of the correct benchmarks and policies associated with the set number of applications;

- Demonstrated identification of referral agencies, if any, for these set number of applications;
- Demonstrated identification of the correct Level of Assessment for these set number of applications;

Guideline for an ‘Accredited Consultant / Consultancy’

In order to ensure compliance with the requirements of the accreditation process, guidelines have been developed that clearly articulate the roles and responsibilities of the ‘Accredited Consultant / Consultancy’ and any other interested party. It is recognised that both parties (Council and the ‘Accredited Consultant / Consultancy’) must possess a detailed understanding of the process to guarantee its success.

The Guideline for an ‘Accredited Consultant/Consultancy’ clearly outlines a step-by-step process which:

- Identifies the requirements for the lodgement of an application under RiskSmart;
- Identifies the timeframe or indicative timeframe by which Council will issue an approval having relied on the accreditation;
- Identifies a probationary period; and
- Identifies an auditing process.

Deed of Agreement for Accredited Consultant and Deed of Agreement for Accredited Consultancy

The ‘Accredited Consultant / Consultancy’ must agree to the terms and conditions of the process before Council can reasonably rely on their expert advice. This is achieved by documenting the roles and responsibilities of both the ‘Accredited Consultant / Consultancy’ and the Council, and requiring a signature of acceptance of these terms. The documents that formalise this arrangement for consultants and consultancies are titled the Deed of Agreement for Accredited Consultant and Deed of Agreement for Accredited Consultancy (the deeds) and are attached in the Accreditation Kit.

The roles and responsibilities of each party participating in this accreditation process are clearly articulated within these two deeds. This insures that all have a clear understanding of their role in the process and have no recourse for not following the rules set down through this process. Any non-compliance with the criteria and information provided by the Council may be grounds for removal of accreditation for both the consultant and the consultancy they represent. Council may also undertake proceedings to have any errors by the consultant rectified.

The deeds are legally binding. It is the basis on which Council will rely on the expert advice provided by the consultant.

4.0 Qualifying Accredited Representatives and Organisations

Meeting the accepted criteria to qualify as an 'Accredited Consultant and Consultancy'

The consultant and Consultancy is required to submit an application to Council supported by documentation demonstrating how they meet the criteria outlined by Council. If a consultant and consultancy achieves the acceptable criteria for accreditation, that consultant and consultancy will become accredited and will be able to participate in the RiskSmart process.

Council may outline responsibilities and impose conditions on the accreditation of a consultant and / or consultancy. If the 'Accredited Consultant or Consultancy' breaches the terms of the accreditation, Council may remove accreditation depending on the severity of the breach.

The consultant and Consultancy are required to provide a minimum of two example applications of the development type being applied for. The list of development types is provided below. Each example application must have been lodged and approved in the Logan City Council area within the last 2 years of applying for accreditation.

Development Types are:

- Residential – House
- Residential – Other (includes mixed use developments incorporating residential component)
- Industry
- Reconfiguring a lot (within any zone)
- Commercial / retail / Other (also includes mixed use developments incorporating residential component and other uses not listed here).

This accreditation may only apply to the specific development type (i.e. Industry, Residential etc) that the applicant has requested accreditation for, and does not allow the consultant to assess development applications under RiskSmart in which they have not demonstrated the necessary competence. For example, a particular applicant may provide a number of compliant development applications for residential development but may not have any experience with retail or commercial development applications in Logan City Council. In this case, the applicant should be accredited for applications concerning residential development type but not retail development type.

Should the applicant not be able to provide sufficient quantum of example applications of any given development type, RiskSmart accreditation with any other Queensland local authority may be given some weight by Logan City Council. The amount of weight given

will depend on the applicants experience and reference from the other Queensland local authority(s).

If the consultant / consultancy only wish to be accredited for specific uses or development types, this should be clearly stated in the accreditation kit and a covering letter submitted to council.

Agreeing to be bound to the guidelines and requirements of the accrediting body

The 'Accredited Consultant and Consultancy' must sign the terms and conditions applied by the Council in the deeds.

5.0 Monitoring the Process

Monitoring the activity of its 'Accredited Consultant and Consultancy'

In order to ensure that the 'Accredited Consultant and Consultancy' are complying with requirements of the Council, a post-approval and post-construction audit process may be undertaken. This post-approval and post-construction audit allows Council to determine how well the process is working, any inconsistencies or issues with their criteria or process, and whether Accredited Consultants are breaching the requirements of the process.

Disciplinary action for misdemeanours

Any breach is grounds for the Council to undertake a detailed assessment of all development applications lodged by the consultant and the consultancy and thus for their removal from the list of 'Accredited Consultants and Consultancies.' Council may however, at their discretion, consider issues such as the severity of the alleged breach, the responsiveness of the consultant to the breach and history of the consultant and the consultancy they represent in determining an appropriate course of action. In these cases, the severity of the breach will dictate the disciplinary action to be taken. Below are four primary disciplinary actions that a Council may take in order of severity (Note that the decision of what action to take resides with the Council):

- Notice to applicant for the first discrepancy;
- Return to a probation period for a set number of applications and subject to an extended approval timeframe;
- Removing the ability to lodge under RiskSmart for a set period of time (suspension); and
- Cancellation of accreditation of the 'Accredited Consultant and Consultancy'.

Additionally, Council may, under certain circumstances, obtain access to the insurance if the individual (or consultancy) were to engage in fraudulent or misleading activities.

Note that all disciplinary action(s) that are imposed on a particular consultant will also be imposed on the consultancy they represent. The expectation is that the participating consultancy develops their own quality assurance process regarding RiskSmart.

FORM A2: Guidelines for Accredited Consultant / Consultancy

The purpose of this practice guideline is to inform the Accredited Consultant / Consultancy of the operational nature of RiskSmart and outline general expectations.

This approach offers an opportunity to advance partnerships, assist in delivering services to the community, and provide an innovative approach to service delivery. The process offers a means of fostering a stronger relationship with industry colleagues by quickly deciding applications considered straightforward. It achieves this by effectively allowing a Council to rely upon information from an Accredited Consultant / Consultancy, whilst retaining the decision-making powers, thus avoiding any duplication of effort. In terms of benefits to industry, it is envisaged that the application assessment period will be significantly reduced, and the Accredited Consultant / Consultancy is more closely involved in the development process.

The Accredited Consultant / Consultancy is responsible for the following:

- Preparing reports that addresses the relevant policies / standards / benchmarks;
- Collating all necessary specialist reports to support the proposal;
- Providing any necessary Referral Agency responses;
- Providing all necessary standard approval conditions;
- Lodging application with Council;
- RiskSmart Application Checklist.

The Accredited Consultant / Consultancy will **not** be responsible for the following:

- Issuing Development Permits.

Council will endeavour to issue an Development Permit within five business days of lodgement.

Note: RiskSmart transfers responsibility to the Accredited Consultant / Consultancy to ensure supporting specialist reports are accurate and contain sufficient detail as would otherwise be required by Council for review. If issues arise in future, Council may take legal steps against the Accredited Consultant / Consultancy to rectify the issue or matter.

Both the Consultant and Consultancy must sign a Deed of Agreement with Council, which confirms the roles and responsibilities of the Accredited Consultant(s) and is the basis on which Council and the Accredited Consultant / Consultancy will participate in the RiskSmart process.

The **RiskSmart Assessment** process is outlined below:

Stage 1 – Accredited Consultants

- Consultant and Consultancy complete Accreditation Kit including Deeds of Agreement;
- Council nominates conditions on an approval or by agreement to confirm the certification of the Accredited RiskSmart Consultant.

Stage 2 – Design and Assessment

- Pre-lodgement meeting or discussions are to occur between Accredited Consultants and Council if and when required;
- Accredited Consultant prepares planning application reports and conditions;
- The Accredited Consultant has contacted and received advice and or conditions from Water Infrastructure;
- If the application triggers a referral to an External Agency in accordance with the regulation, it is the Accredited Consultant / Consultancy's responsibility to liaise with and obtain letters of requirements and incorporate any subsequent conditions;
- Accredited Consultant / Consultancy lodges complete and assessed application with Council;
- Council will endeavour to decide the application within five business days upon receiving an application that meets the criteria outlined in the relevant checksheet for the proposed use.

Section 1: Probation Program

A new Accredited Consultant / Consultancy will be on probation for the first three (3) applications lodged as part of the RiskSmart Assessment process. Under probation, Council will undertake an audit of the application prior to its approval. The probation program is to provide Council and the consultant with an understanding of the RiskSmart Assessment process.

Section 2: Auditing

Auditing will be performed by Council, at the Council's discretion, to assess the adequacy of the process and the performance of the individual consultants;

Council may contact the Accredited Consultant / Consultancy during an audit process for information or assistance.

Section 3: Miscellaneous

Any omissions, errors or misdirections will be discussed with the consultant and are grounds for removal from the RiskSmart process. Council may also undertake legal steps to rectify said errors or misdirections.

All standard templates, forms, criteria and conditions will be provided to an Accredited Consultant / Consultancy and can also be obtained from the Development Assessment Branch.
