- (2) A cost-recovery fee is a fee for:
 - (a) an application for the issue or renewal of a licence, permit, registration or other approval under a Local Government Act (an application fee); or
 - (b) recording a change of ownership of land;
 - (c) giving information kept under a Local Government Act;

 - (a) the person liable to pay the cost-recovery fee; and
 - (b) the time within which the fee must be paid
- (4) A cost-recovery fee must not be more than the cost to the local government of taking the action for which the fee is charged.
- (5) However, an application fee may also include a tax:
 - (a) in the circumstances and for a purpose prescribed under a regulation; and
 - (b) if the local government decides, by resolution, that the purpose of the tax benefits its local government area.
- (6) The local law or resolution that fixes an application fee that includes a tax must state the amount, and the purpose, of the tax.
- (7) If an application fee that includes a tax is payable in relation to land, the tax applies only in relation to land that is rateable land.
- (8) A local government may fix a cost-recovery fee by resolution even if the fee had previously been fixed by a local law.

Development Assessment

Explanatory Notes to Schedule Fee Strategy

All Fees & Charges are covered by PA 2016 Section 51 (1)(b)(ii) or otherwise specified. A development application will not be a properly made application for the purpose of PA 2016 Section 51 (1)(b)(ii) unless accompanied by the prescribed fee. **Any development application involving multiple uses or types lodged with Council must be accompanied by a written breakdown showing how the Applicant determined the applicable fee.**

Application Involving more than one type of development (Combined Application)

Fees for a combined application are to be the sum of those fees that would have been required in the event of a separate development application being lodged for each type (e.g. Material Change of Use, Reconfiguration of a Lot, Building Works against the Planning Scheme).

Multiple Land Uses

Where an application involves more than one type of land use (Material Change of Use) over one lot, or multiple instances of the same use over one lot, then the fee is to be based on the highest land use fee plus 75% of the fee for each additional land use and additional instance of the same use proposed as part of the application.

Land Use(s) over Multiple Lots

Where an application involves more than one type of land use(s) over multiple lots, the fee is to be calculated based on the applicable land use fee multiplied by the number of times the use is applied for.

Variation Approval and Subsequent Development Permit

The application fee for a PA 2016 variation request will be as per below:

Table 1: Variation Request associated with Dwelling houses

Building Envelope Plans/Development Control Plans

Where multiple Dwelling houses are proposed through a Building Envelope Plan/Development Control Plan, the following table applies:

Table 3: BEP and DC charging mechanism

Fee Name	Unit	2023/24 Fee Amount (including GST)
Building envelopes for the purposes of stormwater tanks only and for 4 lots or less, where lodged in conjunction with a Reconfiguring a lot application	Each Application	No Charge

Resubmission of a Lapsed Development Permit

Where the currency period of an approval has expired and a development application is:

1. resubmitted within 6 months of an existing approval lapsing; and
2. the proposal is generally consistent with the former approved plans, and
3. there have been no changes to the Planning Scheme provisions applicable to the proposal, the applicable fee will be 75% of the application fee.

Note: Council will not accept the resubmission of a lapsed approval more than once.

Changes to Applications

For a change post approval, where the change is a 'minor change', the fee will be as per the fee schedule, otherwise where the change is an 'other change' the fee is the full development application fee as per the fee schedule.

Application Risk Smart Assessment

All RiskSmart applications must be lodged through a Council RiskSmart Accredited Consultant and the applicable fee will be 75% of the scheduled application fee.
