

Nature Explorers

Outdoor Scavenger Hunt: Tick the things that you find.

A curved leaf

A colourful bird

A mushroom or fungi

Some water

Some bark

A bug or insect

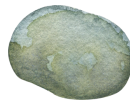

A spiderweb

A feather

A birds nest

Something smooth

Something yellow

A seed or seed pod

A red flower

A tall tree

Did you know trees provide homes to lots of different animals and insects?

Draw and write the name of three animals or insects you may find living in a tree.

Fun Fact!

The leaves on trees take in sunlight to help make the food it needs to grow.

Turn over for some colouring fun!

Please supervise your children during these activities.
