

Returning a signed infrastructure agreement for water or sewerage

Notes for completing this form

This form is to be used when returning a signed infrastructure agreement to Council for execution.

Signing the agreement

Two copies of the agreed Infrastructure Agreement must be printed (double sided) and signed for each party (Proponent) to the agreement. It is important that the authorised person(s) as identified in the Infrastructure Agreement execute the agreement.

The Infrastructure Agreement may be signed by all the landowners or the Proponents if not the landowners. If the Proponent is not the landowner(s) of the development land they will need to provide evidence that the landowner(s) of the development land:

- a) have consented to the Development Obligations of a Proponent being attached to the development land under the Planning Act, and
- b) have given a copy of the document evidencing the landowner's consent to the Council.

A company may execute a document in line with sections 127(1) or (2) of the Corporations Act 2001 (Cth).

Section 127 (1) - "Execution of documents (including deeds) by the company itself": A company may execute a document without using a common seal if the document is signed by:

- a) 2 directors of the company, or
- b) a director and a company secretary of the company, or
- c) for a proprietary company that has a sole director who is also the sole company secretary—that director.

Section 127(2) - provides that a company may also execute a document by fixing the common seal to the document and having it witnessed by one of the three combinations of officers set out above.

As many Australian companies no longer use a common seal, it is more common to execute under section 127(1).
