

Woodlands Drive Master Drainage Upgrade Rochedale South

Project update, November 2023

Woodlands Drive Master Drainage Upgrade

Logan City Council is investing in local neighbourhoods with new and upgraded roads, parks and drainage. The Woodlands Drive master drainage upgrade means better storm protection for properties in Rochedale South during future wet weather events.

The upgrades will:

Help protect people and property

Allow stormwater to drain more efficiently

Build a more resilient and reliable stormwater network

Project update

Logan City Council is delivering a major stormwater upgrade across Rochedale South. These works are part of our \$124.5 million capital works investment in better local storm protection during wet weather.

Commencing in 2020, this complex upgrade is being delivered over multiple streets in stages across the project zone.

What is happening right now?

Rectification works are underway in Woodlands Park until early next year. Woodlands Park will be closed to the public during this time.

Next stage

Mid-2024 will see the next phase of works get underway in Glengala Drive, Lancelot Street and Woodlands Drive.

We will keep you informed as we complete these essential works.

Delivering a better stormwater network

Upgrading infrastructure is a complex process. In addition to excavating and installing new, much larger pipes, we also work with other utility providers to coordinate relocation of power, gas and telecommunications above and below the ground.

All of this takes place on local streets, in cooperation with residents and road users as they live, work and move about.

To help reduce the duration of works, multiple crews will be in action across the project zone.

Project staging

Status	Locations
Current works	Woodlands Park rectification works
Completed works	Lancelot Street (Woodlands Drive to Maria Circuit), William Street (Landsborough Street to Woodlands Drive) and Woodlands Drive (Hartog Place to Lancelot Street)
Works from mid-2024	Glengala Drive (Tandara Street to Jacana Street), Lancelot Street (Monica Street to Underwood Road) and Woodlands Drive (Lancelot Street to Glengala Drive)
Future works	Devon Street (Woodlands Drive to Winston Street), Gable Street (Winston Street to Belconnen Street), Winston Street (Kingsley Street to Underwood Road), Woodlands Drive (Hartog Street to Underwood Road) and Trevelloe Street (Kingsley Street to Amanda Street)

Project timing

Currently, rectification works are taking place in Woodlands Park and are anticipated to finish early 2024. Woodlands Park is closed to the public during this time.

Works in Glengala Drive, Lancelot Street and Woodlands Drive are expected to commence in mid-2024. We will notify the community before the works begin with further details including timing and what you can expect.
