

# CONSTRUCTION UPDATE:

## Chambers Flat Road Upgrade

May 2023

**SEE Civil is the appointed contractor to construct the Chambers Flat Road upgrade between Mount Lindesay Highway to just north of Kings Way.**

### Zone 1 & 2 works begin

**From late May 2023**, work will begin on road reserve activities under controlled traffic conditions in **Zone 1 & 2** of the project corridor **from Munruben Ambulance Station to 1737 Chambers Flat Road** (see map over page).

### Upcoming traffic changes

**From late May 2023**, closure of the eastbound lane of Chambers Flat Road will extend to **Zone 1 & 2**.

Motorists will only travel westbound towards Mount Lindesay Highway. For your safety and the safety of workers, please follow the direction of traffic control and signage.

The eastbound lane will remain closed until project completion (*expected in late 2024 – subject to weather and construction conditions*).

### Road reserve works

The works will include:

- drainage installation
- earthworks to form 'spoon' or 'V-style' drains
- vegetation clearing
- topsoil stripping
- replacement of property crossover culverts
- use of temporary material to maintain property access during crossover replacements.

### Property access during works

To minimise household impacts of temporary crossover works, a SEE Civil project team member will contact property owners ahead of work to discuss activities and access.

### Drone surveys

Drone flights will occur intermittently during the project to record progress and assist engineering. The next scheduled flight will be between **Monday 22 May and Friday 2 June 2023**.

### What to expect

During construction, you may experience:

- reduced speed limits and traffic changes. For the safety of motorists and workers, temporary traffic changes will occur including intermittent traffic controls such as assisted entry and exit to private properties, traffic light controls, and direction of traffic control to allow safe movements of plant, heavy vehicles, and equipment.
- frequent lane adjustments and changed road alignments
- noise, dust, and vibration
- temporary changes to property access
- asphaltting and sealing work odours
- increased truck movements
- weather, site conditions, permits and approvals may impact works and scheduled start and finish times.

### Register for project updates

Project updates direct to your email are a convenient way to keep up to date.

Scan the QR code or contact us to register for updates.

### Construction hours

#### Standard construction hours

Standard construction hours are from **Monday to Saturday from 7am to 6pm** (excluding Public Holidays).

#### Out-of-hours works

Some works may be required outside of standard construction hours, residents and businesses will be notified ahead of these works.

## Chambers Flat Road Diversion

## About the project

Logan City Council is rebuilding 3.8 kms of Chambers Flat Road from Mt Lindesay Highway, Munruben, to Kings Way at Chambers Flats as a vital link in the road network. It will deliver A safer, smoother, wider road with improved flood immunity.

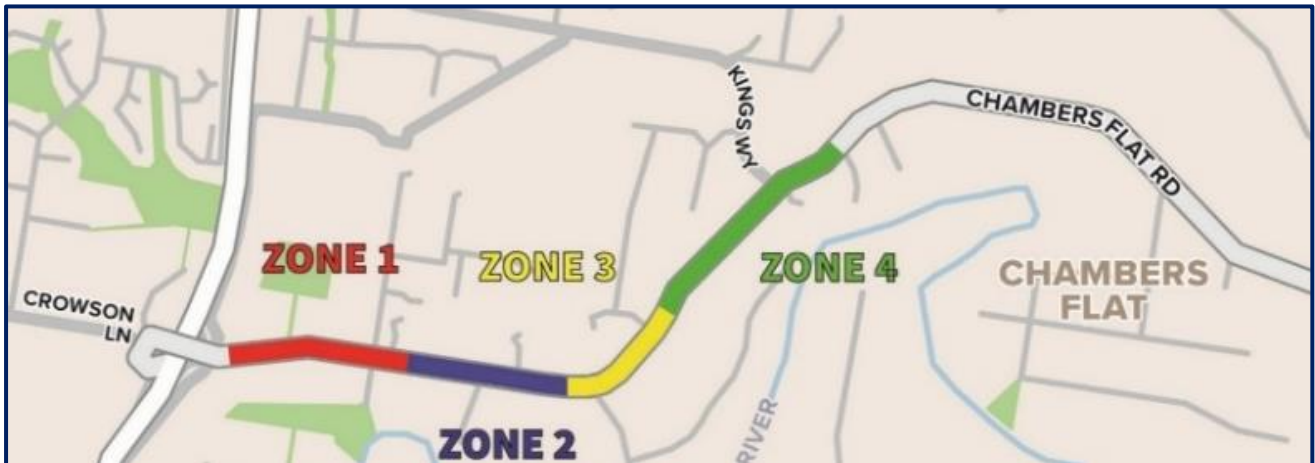

### Work Zones

**Zone 1:** Munruben Ambulance Station to Norris Creek Rd

**Zone 2:** 1866 Chambers Flat Rd to 1737 Chambers Flat Rd

**Zone 3:** 1737 Chambers Flat Rd to 1545 Chambers Flat Rd

**Zone 4:** 1545 Chambers Flat Rd to Riverina Court
