Dear resident,

### **RE: NOTIFICATION OF EXTENDED WORKS: WOODLANDS DRIVE MASTER DRAINAGE PROJECT**

---

As you may be aware, our contractor, BMD Constructions Pty Ltd, has been installing new drainage and wastewater infrastructure as part of our Woodlands Drive Master Drainage project. These works were originally scheduled to be completed in July 2022.

Unfortunately, the recent flooding event combined with ongoing wet weather experienced from November 2021 to mid-February 2022, has directly impacted our contractors site works, resulting in a delay to their construction program.

Project works are now expected to be completed by late-September 2022 (subject to weather and site conditions).

On behalf of Council, I would like to apologise for any inconvenience this delay may cause and thank you for your understanding.

If you have any queries regarding this information, please phone the project's Communications Officer, Dannii Cunnane on (07) 3412 4483 or email [roadcomms@logan.qld.gov.au](mailto:roadcomms@logan.qld.gov.au).

Yours Sincerely,

**Prakash Poudel**  
**Principal Engineer – Construction Management**
