

Chambers Flat Road Upgrade

Project update, April 2024

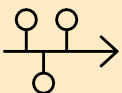

Logan City Council is upgrading 3.8 km of Chambers Flat Road, from Mount Lindesay Highway, Munruben, to just north of Kings Way, Chambers Flat.

These upgrades mean:

Improved road safety as traffic grows

Improved connectivity to support Logan's southwest

Reduced road closures during wet weather events

Milestone update December 2023 to April 2024

New Norris Creek Bridge takes shape

Following piling works in October, the next major parts of the new Norris Creek Bridge are complete. Over three days in March, a 500 tonne, all-terrain crane lifted 90 concrete girders into place for the new bridge decks. Activities are ongoing, including construction of the new roadway.

The upgraded crossing has been raised by 8 metres for better access during severe wet weather.

The bridge opening is expected in late 2024.

First sections of new alignment opened

The first section of the new Chambers Flat Road alignment opened to both directions from Riverina Court to Grevellia Road, in December last year.

This was followed by the opening of the westbound lane from Greenvale Road to Mount Lindesay Highway in March. Construction is ongoing for the new eastbound alignment.

Improved Kings Way intersection

Opening of the Kings Way intersection in December 2023 saw the end of a signalised detour. Road users have been returned to quicker journeys towards Munruben Ambulance Station.

Fast facts

Noise reducing asphalt for roadways

Sealed 3 metre shoulders for safer access

75 new driveways and 15 new fences constructed

More than 266 thousand tonnes of fill used to build the bridge embankments - that's same as 53 Olympic swimming pools!

Our road network commitment

The Chambers Flat Road Upgrade is part of Council's \$850 million dollar investment in roads and transport solutions from 2022–2026/27 to keep Logan moving safely.

Ongoing economic growth in Logan means we need to deliver a sustainable and reliable transport network.

With our population set to almost double by 2041, improving our road and active transport network is one of the ways we are unlocking Logan's potential and preparing for the future.

What's next

Upcoming milestones include:

- › placement of bridge roadway, shared footpaths and guardrails
- › construction of sidetrack at Greenvale Road for intersection upgrades
- › opening of both lanes from Greenvale Road to Munruben Ambulance Station
- › opening of the new Norris Creek Bridge
- › upgrades to intersections at Grevillea Road and Greenvale Road
- › landscaping, line marking, and signage.
