### Waste Disposal

#### Waste Definitions

**Domestic Waste** - waste brought in by a Logan resident or ratepayer from a residential property. Domestic fees apply. It is not domestic waste if taken from a residential property in a commercial arrangement (see Commercial Waste below).

**Commercial Waste** - any waste generated and/or transported as part of a service undertaken by a person or business for a fee or reward. Commercial fees apply, even if the waste is from a residential property, or the person delivering the waste is a Logan resident or ratepayer.

**Green Waste** - means only grass cuttings, trees, shrubs, loppings of trees, bushes or shrubs, or similar matter. It DOES NOT include processed timber products such as fencing, pallets, posts wall/floor sheeting etc. All timber products will be deemed "Construction and Demolition" waste and applicable fees will apply.

**Low Hazard Regulated Waste** - includes food processing waste, poultry processing waste, fish processing waste, low level contaminated soils, shredded tyres.

#### ACM\* - Asbestos Containing Material

Disposal fees are determined by the size/volume of the load and not by the type of vehicle/trailer that the waste is transported in. The images below are for guidance only.

**Waste Small** - up to a 240L wheelie bin. For example, a load up to an average sedan boot, half a trailer, half a utility tray.

**Waste Medium** - up to 1m<sup>3</sup>. For example, a load up to an average sedan boot and back seats, full station wagon boot, full 4x4 or SUV wagon boot, full passenger van boot, full trailer, full utility tray.

**Waste Large** - up to 2m<sup>3</sup>. For example, a load up to an overfull trailer, overfull utility tray, full commercial van, full utility with full trailer.

#### Transfer Station Acceptance and Charging Policy

Public weighbridge certificates only available Monday to Friday 9.00am - 12.00pm and 1.30pm - 3.30pm (excluding public holidays). If the weighbridge is NOT operational, fees will be applied as per a site without a weighbridge and waste loads greater than a Waste Large may not be accepted.
