

Notice of work

August 2024 | Rochedale South

Water Main Relocations

What is happening?

In preparation for the stormwater drainage infrastructure upgrade by Council's Road Infrastructure Delivery Branch, Logan Water is carrying out water main relocation works in your area.

To minimise disruption, the water mains will be installed using a combination of construction methods, including underground drilling, and open trench construction.

Where is it happening?

The works will occur in Council-owned Road reserve along Woodlands Drive, Glengala Drive, Underwood Road, and Lancelot Street in Rochedale South (see the map overleaf for further details).

When is it happening?

Work will commence in early-August 2024 and is scheduled to be completed by mid-September 2024. The timing and duration of the works is subject to construction and weather conditions.

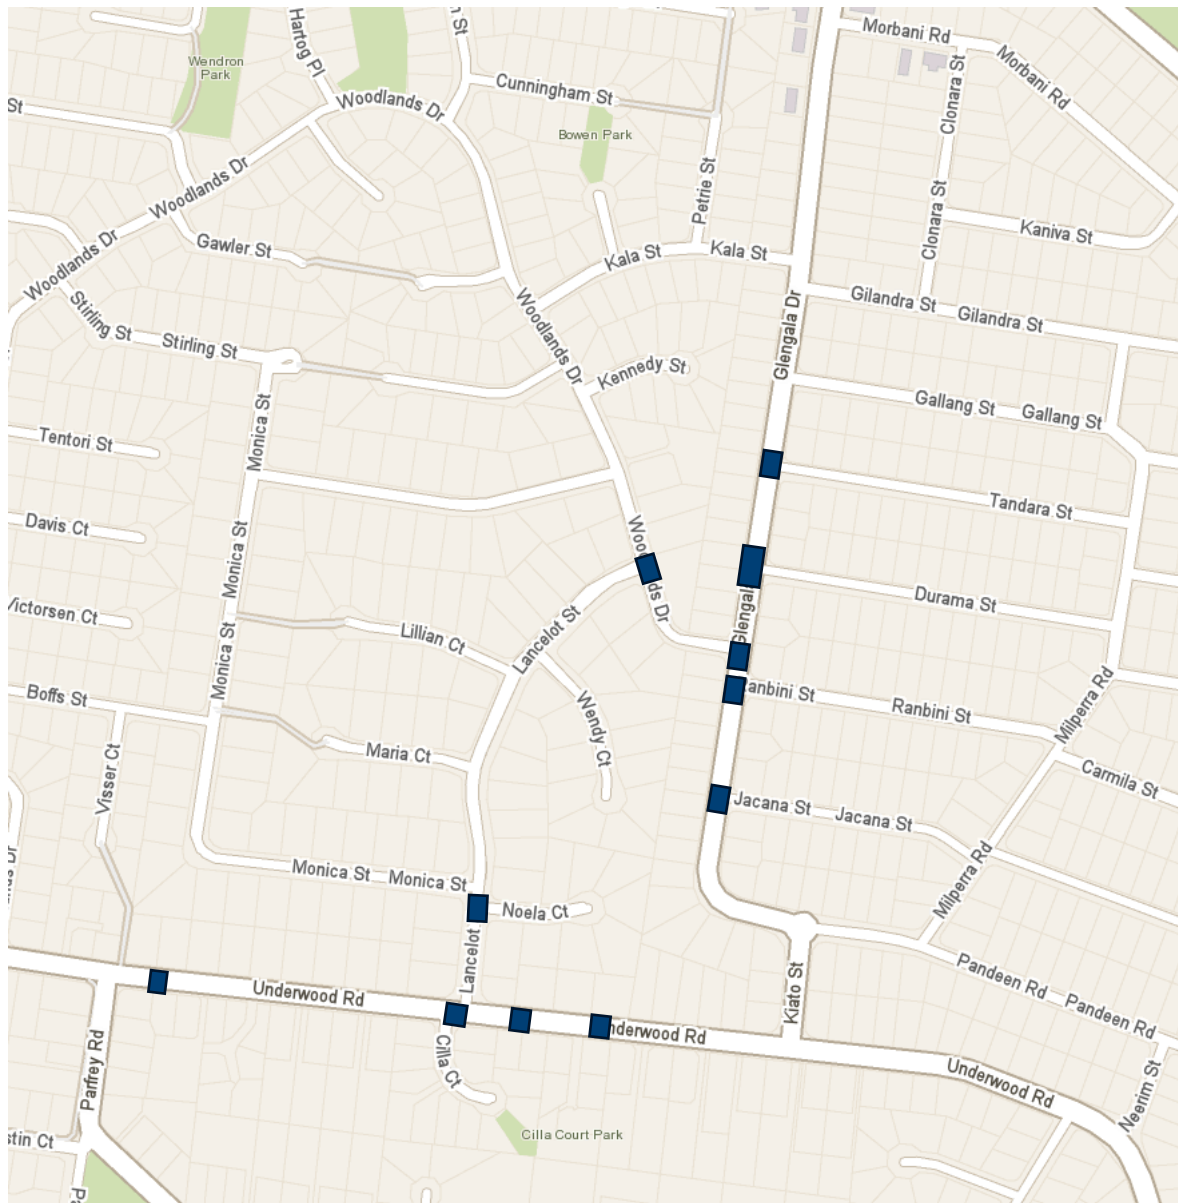

Construction works will generally occur between 7.00am and 6.00pm, Monday to Friday. Weekend works and nights are not expected however properties affected will

be notified separately prior to the works occurring.

What can I expect?

Logan Water will make every effort to minimise disruption to the community during these works. However, some localised construction impacts may be experienced at times including:

- Noise, dust, and vibration from machinery. The site team will mitigate these impacts where possible.
- Some residents may experience multiple temporary water outages (for up to eight hours) during the works. Affected residents will receive a separate notice of these water outages prior to the works. Please check your mailbox.
- Changed pedestrian routes, parking restrictions and possible detours at times.
- Frequent truck movements to and from work sites to allow machinery / materials to be delivered and removed.
- Logan Water will undertake all required vegetation removal in accordance with council and State Government requirements.
