

Final Construction Notice

Chambers Flat Road Upgrade

August 2024

PROJECT UPDATE – ROAD RE-OPENING

We are pleased to inform you the Chambers Flat Road Upgrade is now complete.

- > **The current one-way diversion will be removed and the road will re-open in both directions in the coming days.**
- > SEE Civil will continue to work onsite over the next 4-6 weeks, to complete any finishing works.
- > The 60kmh speed limit will remain in place until all works are complete and then revert to 80kmh.
- > Please comply with the signage in place.

WHAT THE PROJECT SCOPE OF WORKS INCLUDED

- > widening the corridor, providing wider traffic lanes (3.5m) and 3m wide sealed shoulders for safer exit and entry to properties
- > building a new bridge over Norris Creek
- > upgrading Norris Creek Road, Kings Way, Grevillea Road, and Greenvale Road intersections for safer turning and better traffic flow. This includes new turning lanes at Kings Way and Greenvale Road
- > reconstructing the road pavement and more efficient road drainage structures
- > completing auxiliary service relocations, vegetation removal, restoration activities, works in private property (agreed during the design phase), line marking and signage
- > installing wildlife protections including fauna fencing, escape poles, culvert crossings and nesting boxes.

PROJECT IMPROVEMENTS

The Chambers Flat Road Upgrade benefits include:

- > a new bridge over Norris Creek 8m higher than previous, providing much greater flood immunity and reliable, safer access
- > a smoother asphalt road with reduced tyre noise
- > enhanced sight distances at bends and crests to meet safe road design standards
- > unlocked local bottlenecks for more reliable travel times
- > improved flood resilience along the road corridor.

THANK YOU FOR YOUR PATIENCE

Logan City Council and SEE Civil's Project Team, sincerely thank all residents affected by our works, the local community and motorists for your understanding and patience during these essential safety improvement works.

TIMELAPSE FOOTAGE NORRIS CREEK BRIDGE

We would like to share with you timelapse video of the entire construction of the new bridge over Norris Creek – a key safety component of the upgrade
