

NIGHT WORKS

Middle Road, GREENBANK

Mid-September - October 2024

What is happening?

We are undertaking repairs to sections of Middle Road, Greenbank to improve road safety. The repairs will address water pooling and shoulder drop off which creates a hazard for drivers particularly during wet weather.

The works will include:

- Shoulder grading
- Drain cleaning
- Shoulder gravel resheeting
- Driveway culvert cleaning
- Guidepost replacement
- Removal of vegetation (grass/topsoil/tree trimming) within the road reserve where required.

When is it happening?

Works are scheduled for Mid-September to October 2024, weather and site conditions permitting.

To avoid traffic delays, works will generally occur during the night from 6.00pm to 4.30am Sunday to Thursday. However, some works may occur outside these hours.

Contact us

For more information about these works, please contact us on (07) 3412 3412 or email council@logan.qld.gov.au

What can I expect?

We aim to minimise disruption during these works however, some localised construction impacts are unavoidable including:

- Changed traffic conditions with lane closures and reduced speed limits
- Truck movements to and from the work site to facilitate delivery of materials and equipment, and removal of excavated material
- Increased levels of noise and dust. Council's workers will attempt to reduce this impact as much as practical.

We thank you for your patience and cooperation while these essential works are carried out and apologise for any inconvenience you may experience during these works.
