

Woodlands Drive Master Drainage Upgrade

Project update, September 2024

The Woodlands Drive master drainage upgrade means better wet weather protection for properties in Rochedale South.

Following upgrade activities in 2022, we will soon commence the next stage of works in your area.

The upgrades will:

Help protect people and property from significant rain events

Allow stormwater to drain faster and more easily

Build a more resilient and reliable stormwater network

Project update

Since 2020, Logan City Council has been undertaking a major stormwater network upgrade across Rochedale South.

The next stage will commence in October 2024. These works are part of our \$124.5 million capital works investment in better local storm protection during wet weather.

Where is it happening?

- › Glengala Drive (Tandara Street to Jacana Street)
- › Lancelot Street (Monica Street to Underwood Road)
- › Woodlands Drive (Lancelot Street to Glengala Drive).

When is it happening?

Works are scheduled to start in October 2024, and are expected to be completed in March 2025, pending construction and weather conditions.

Activities will generally occur from 7:00 am to 6:00 pm Monday to Friday excluding public holidays. If works are required outside these hours residents will be notified.

Building a better network

Upgrading infrastructure is complex. As part of installing new, larger pipes, we also work with local utilities to coordinate power, gas and telecommunication services above and below the ground.

We appreciate your patience and cooperation as we complete these essential works.

Woodlands Drive Master Drainage Upgrade Rochedale South

What can I expect?

We will make every effort to minimise disruption. However, some temporary impacts can be expected, such as:

- > changed traffic conditions including reduced speed limits, road/lane closures and detours as needed
- > increased noise, dust, and vibration
- > changes to street parking and restricted driveway access
- > water or sewer disruptions
- > footpath closures and bus route detours.

Residents directly affected by the above will be notified.

Motorists are encouraged to plan their journey and allow extra travel time. Any changes will be signed.
