

WATER AND WASTEWATER SERVICES ENVIRONMENTAL POLICY STATEMENT

Logan City Council recognises the need for sustainable environmental outcomes and is committed to protecting our natural environment.

Across our water and wastewater services, Logan City Council acknowledges the need to adopt strong environmental management practices and is committed to continual improvement in relation to our environmental performance.

As part of this commitment, Logan City Council will, at a minimum:

<p>Set and review measurable environmental objectives and targets and implement programs to achieve them</p>		<p>Minimise or prevent pollution by proactively seeking best practice for water and wastewater management</p>	<p>Provide the necessary resources and training to ensure the environmental objectives are met</p>
	<p>Minimise waste, greenhouse gas emissions, water and energy use to the extent that is practicable</p>		<p>Monitor and comply with all applicable environmental legislation, legal requirements and other Logan City Council commitments</p>
<p>Maintain an open communication approach with stakeholders regarding our environmental performance</p>		<p>Work in partnership with the community and other key stakeholders to enhance and protect the city's environment, whilst respecting its cultural, social and economic values</p>	

We will implement and maintain an environmental management system that is consistent with international standards in order to effectively manage the key environmental aspects of our water and wastewater services.
